

*“Each of us has, deep down inside ourselves, a song
that marked our childhood.”*

Pascal Dusapin

LULLABY EXPERIENCE

LULLABY EXPERIENCE

Be a part of the collective experience *Lullaby*: share your childhood songs on line. We invite you to sing, even to whisper, the memory of a nursery rhyme, even modified by the passing of time and your memories...

Lullaby Experience is a participatory project imagined by the composer Pascal Dusapin, open to all—children and adults alike—around the world.

The collected recordings will provide the sonic material used by the composer for the musical creation of *Lullaby*. Transformed and assembled, they form a singing map of the world, moving through sound space like a flock of birds, drawing the portrait of each city where the work will be shown.
